Application: Digital, AI and Innovation Internship – Global Call 2026 (UNDP)

Dear Hiring Manager,

I am writing to express my interest in the **Digital, AI and Innovation Internship – Global Call 2026** at UNDP. I am currently pursuing a Bachelor of Technology in Artificial Intelligence and Machine Learning at Pragati Engineering College, India, and I am eager to contribute my technical skills while learning from an organization that leverages innovation to address global development challenges.

My academic background has provided me with a strong foundation in artificial intelligence, machine learning, data analysis, Python, Java, SQL, and software development. I have developed practical projects involving machine learning models, data preprocessing, and application development, strengthening my analytical thinking and problem-solving abilities. These experiences have shown me how digital technologies can be applied to solve real-world challenges.

I am particularly inspired by UNDP's commitment to using digital technologies and AI to accelerate sustainable development. The opportunity to collaborate with multidisciplinary teams, contribute to innovative solutions, and support initiatives with global impact aligns closely with my career aspirations.

Beyond technical skills, I am a quick learner who values teamwork, adaptability, and continuous improvement. I am comfortable working independently in remote environments while collaborating effectively with diverse teams. I am confident that my enthusiasm for AI and innovation, combined with my willingness to learn, would enable me to make a positive contribution to the Digital, AI and Innovation team.

Thank you for considering my application. I would be honored to contribute to UNDP's mission while gaining valuable experience in digital innovation and international development. I look forward to the opportunity to discuss how my skills and motivation align with the objectives of this internship.

Yours sincerely,

Karanam Siva Rushinadh
